

ABOUT HEMONTO

Our bespoke reporting platform provides your family office with full transparency

At Hemonto, we understand the need for a strong investment infrastructure.

That's why we are committed to delivering state-of-the-art consolidated financial reporting that provides family offices with greater control and decision-making authority.

Founded in 2006 with offices in Denmark and Norway as well as an international client reach, our more than 50 employees monitor over \$45B and handle more than 300K transactions for our clients on a yearly basis.

You get a bespoke platform for consolidated reporting of all your investment activities based on data you can trust and with the best customer service from a dedicated team.

You get deep data insights to enhance your decision-making which empowers you to make the right financial decisions and execute your investment strategy.

You get a solution that saves administration time and resources on controlling, reconciliations and accounting that can be applied to other value-adding activities.
