PURPOSE BUILT TO PROVIDE A CONSOLIDATED VIEW OF A FAMILY'S ENTIRE NET WORTH

A platform that offers portfolio reporting without accounting, presents an inadequate view of financial health.

An iceberg floating in the ocean. The small, jagged tip is above the water surface, while the much larger, smooth, rectangular block is submerged below. The water is dark blue, and the sky is a lighter blue. The iceberg is the central visual metaphor for the text.

FEATURES

FINANCIAL DATA AGGREGATION

Financial data aggregation for all your liquid/illiquid investments, income and expenses is simplified to save time and reduce error.

PORTFOLIO PERFORMANCE

Track investment accounting and performance reporting within a single platform.

INTEGRATED GENERAL LEDGER

Accurate transaction-level data across all asset classes and full G/L reporting.

PARTNERSHIP ACCOUNTING

Powerful accounting, allocations and look-through reporting for complex partnership structures.

CHECK PRINTING/ BILL PAYMENT

Print single or multiple checks for an account with an audit trail. Multiple checkbooks and formats per account.

iOS/ANDROID MOBILE APP

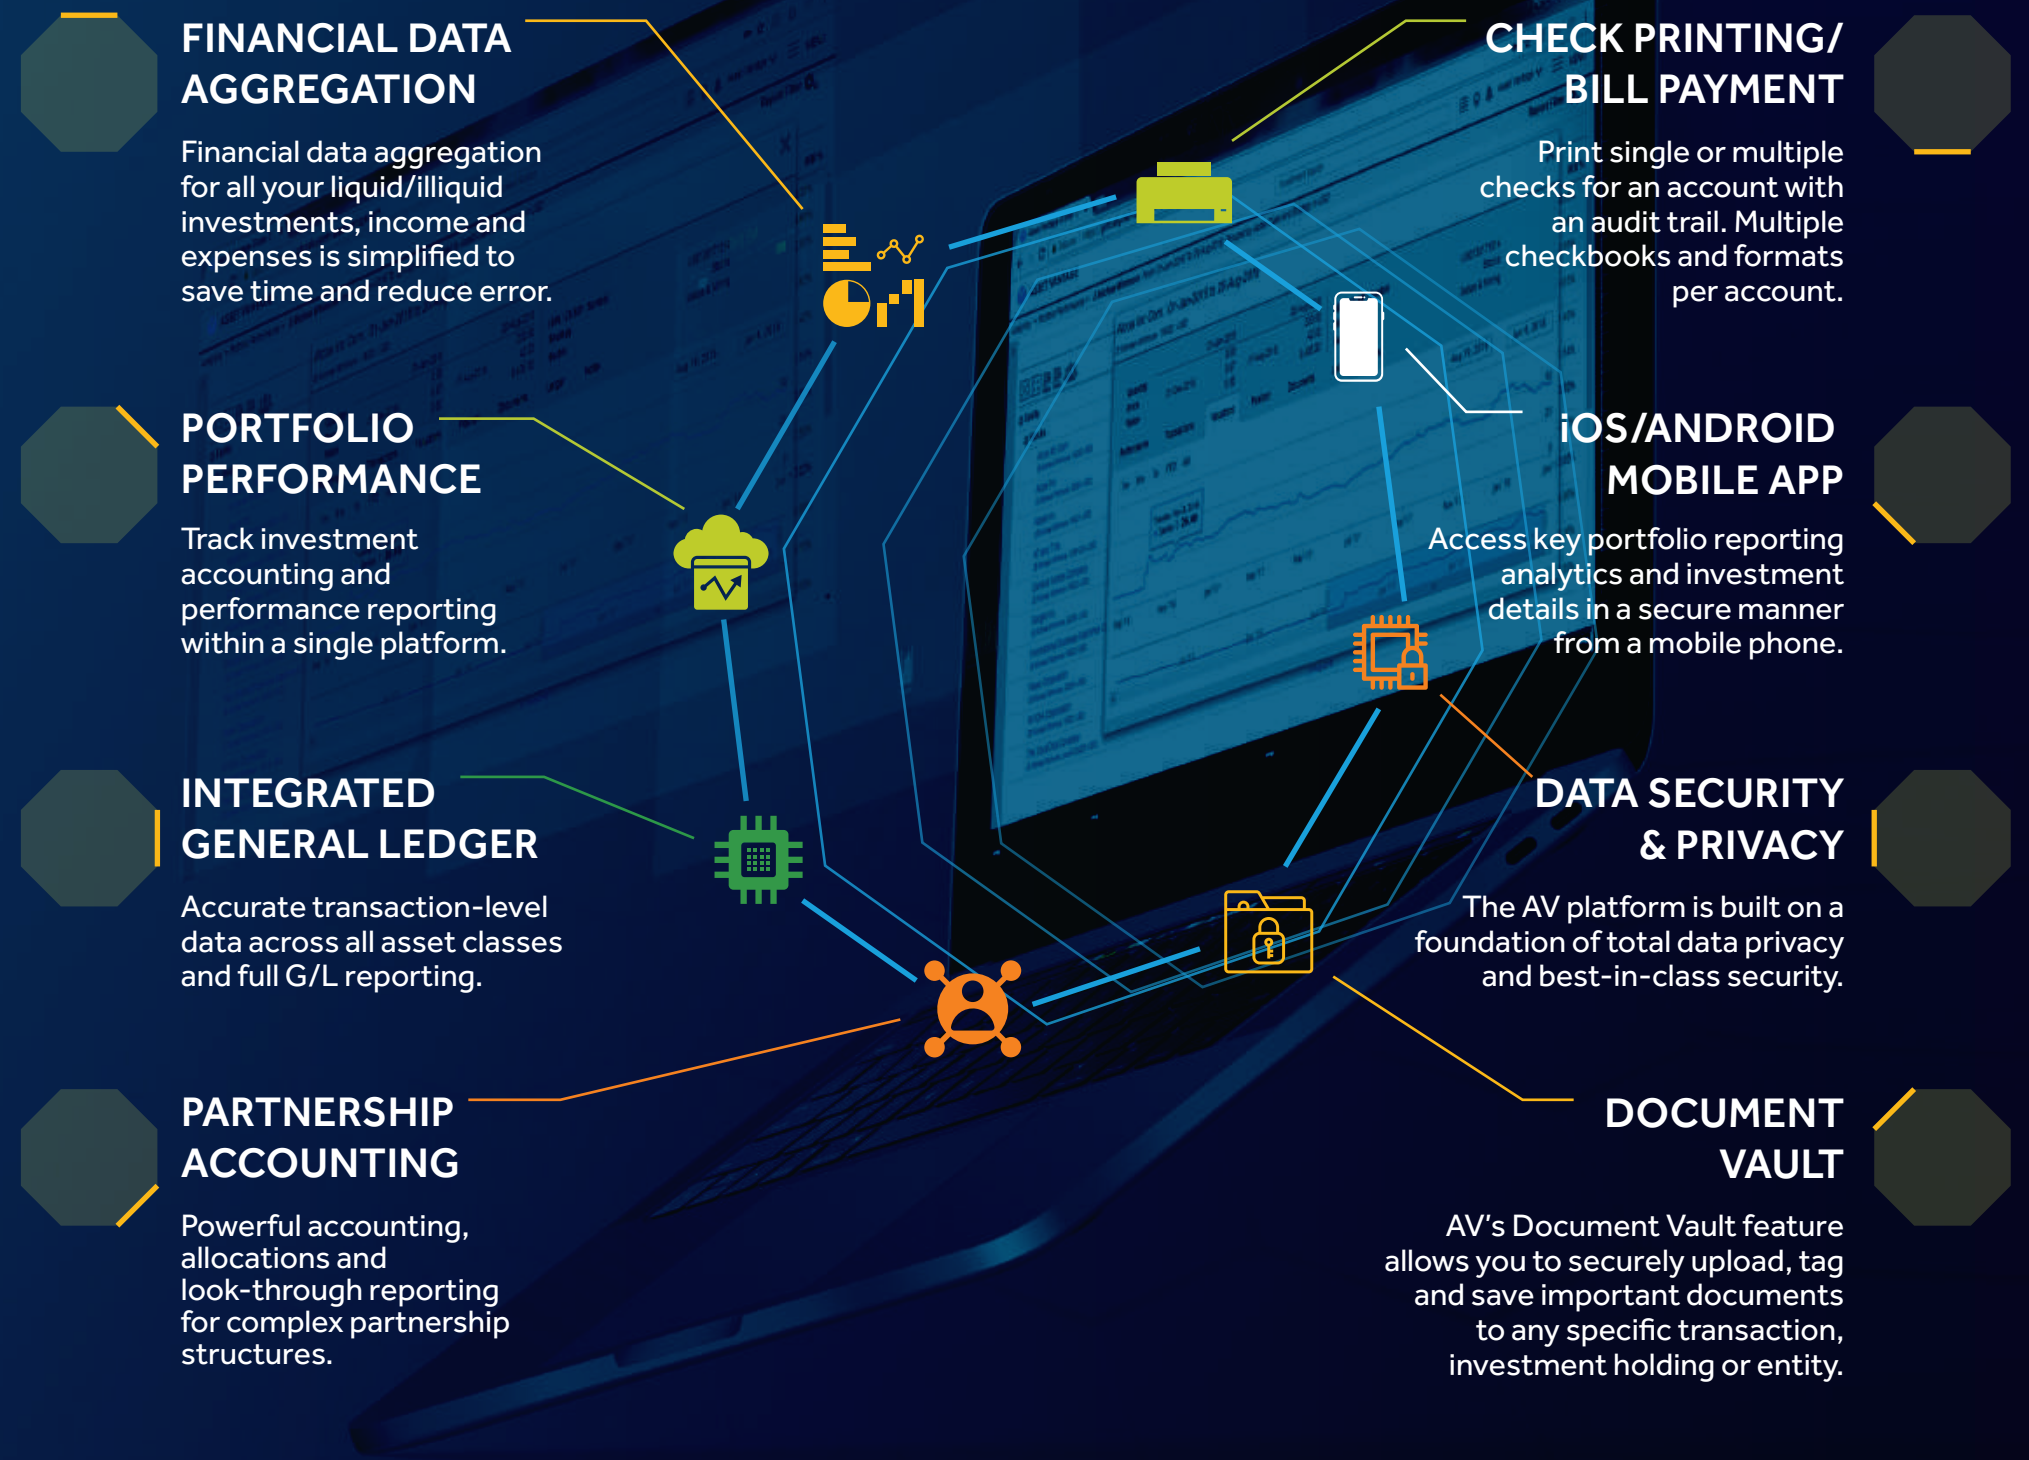

Access key portfolio reporting analytics and investment details in a secure manner from a mobile phone.

DATA SECURITY & PRIVACY

The AV platform is built on a foundation of total data privacy and best-in-class security.

DOCUMENT VAULT

AV's Document Vault feature allows you to securely upload, tag and save important documents to any specific transaction, investment holding or entity.

SERVICES

Avail our premium services through us or our certified partners in addition to your license subscription.

IMPLEMENTATION

We hand hold our clients through full implementation reconciliation and training with our in-house and partner driven implementation teams.

ONGOING DATA MANAGEMENT

Our Data Management Services (DMS) offers a single window service for data aggregation, posting, managing liabilities positions and reconciliation across both liquid and illiquid assets classes.

RECONCILIATION AND AUDIT

Conducting a data audit every month, especially before the reporting cycle, not only gives you a peace of mind but also ensures that your finance team is not scrambling for data at tax time.

BACKUP

You can choose to outsource end of day backup of your data to a secure AWS S3 bucket. Any restore can be done only on your license.

SECURITY

Secure & private environment with zero up-front technology infrastructure spend.

Only you get to decide who gets access to your data. Internally you can create unlimited number of users and define role permissions to restrict or limit access and user rights. User activity and audit trail features add an extra layer of monitoring.

All data is hosted on a Virtual Private Server (VPS) on Amazon Web Services.

No copies of your data are created without your knowledge. Customers can setup periodic backups to a secure location.
