

BVNK

Business Account

Replace your traditional bank account with one that does more.

Take your business banking and payments to the next level with a BVNK Business Account. With all the same capabilities as a traditional bank account, plus the ability to hold crypto and emerging market currencies, your business banking headaches will be eliminated.

With a Global Business Account you can:

Send, receive and exchange funds

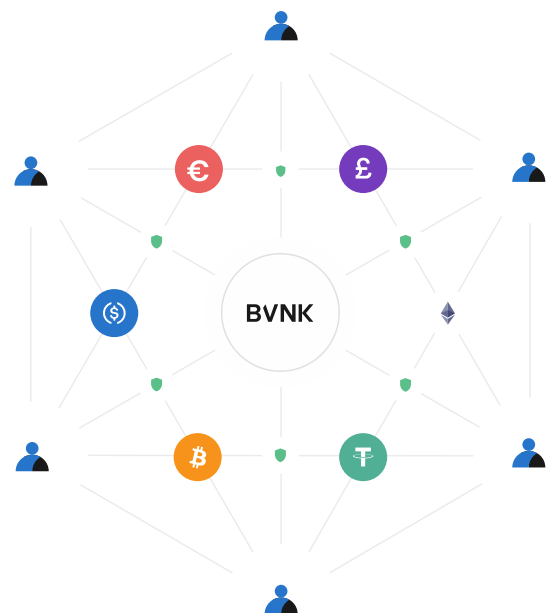

Hold 200+ currencies and assets in one account, and send payments on all major payment schemes and blockchain networks including SEPA (EUR), Faster Payments (GBP), and SWIFT (USD).

Create invoices with locked-in exchange rates to share with partners

Generate payment links within the platform that you can share with partners to collect funds for invoices. Optimise your revenue by securing these locked-in exchange rates, all while streamlining reconciliation by creating invoices in the platform.

Buy and sell crypto with currency you have on the platform

With a dedicated EUR IBAN, you can use your Business Account to pay employees, suppliers and more.

Make third-party payments

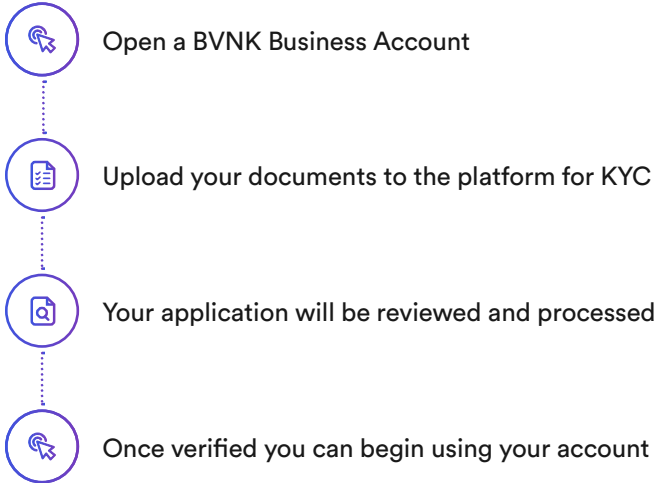

With a dedicated EUR IBAN, you can use your Business Account to pay employees, suppliers and more.

Put idle capital to work

Earn 4-6% interest on all assets held on the platform via our Yield solution, compared to the sub-1% available via traditional bank accounts. Leverage flexible or fixed terms depending on your business cashflow and payment needs.

BVNK

How it works:

Send and receive in any one of these currencies

CNY, VND, INR, IDR, THB, MYR, JPY, PHP, KRW, AED, SGD, NGN, KES, GHS, XOF, XAF, TZS, RWF, ZMW, MWK, GBP, EUR, USD, ZAR

Opening a BVNK Business Account gives you access to our other solutions:

Cross Border Payments

Send money across borders quickly, securely, and cost effectively via crypto rails.

Crypto Payments

Accept payments from around the world quickly, easily and cost effectively via cryptocurrency.
