

CANOE alternative investment data, unlocked

THE STATUS QUO IS NOT SCALABLE

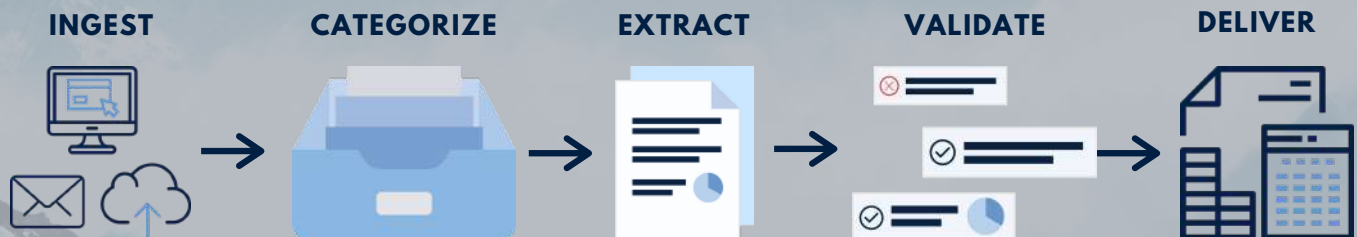

If you're like most alternative investment professionals, you're yearning for more data, more intelligence, and more operational efficiency. But the frustratingly manual processes associated with accessing data from within unstructured PDF documents have created impediments to scale. Large onshore and offshore teams are burdened by latency, errors, and high costs. Canoe Intelligence transforms that reality. Our purpose-built technology, allows forward-thinking professionals like you to unlock the data from within your documents, allowing you to focus on what matters most.

REIMAGINE YOUR DATA PROCESSES
