

Crypto Management Platform

Agora Innovation GmbH 2022

We built an easy-to use platform for investment professionals to get exposure to cryptocurrencies. Via a single interface, our users can trade, stake and lend crypto via multiple venues on behalf of their investors.

Through extensive blockchain experience, our team was able to combine various service modules in the platform that are vital for our clients' success in crypto.

01

Our Clients

Our platform is well suited for investment fiduciaries who want to address their clients' growing demand for cryptocurrencies. Our client base includes but is not limited to:

- ✓ Discretionary portfolio managers
- ✓ Wealth managers
- ✓ Private banks
- ✓ Family offices

02

Current Challenges

In recent years, there has been growing demand for exposure to cryptocurrencies from investors such as HNWI, endowments, family offices and trusts. However, investment professionals serving those investors have been struggling to expand their service offering to crypto. This can be contributed to a lack of access to digital asset infrastructure, which includes crypto exchanges, custodians and other service providers.

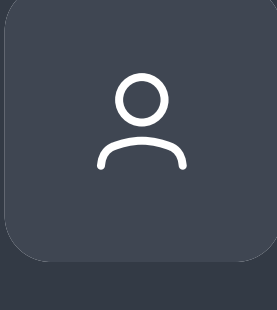

03

Our Solution

- ✓ Possibility to create strategies incl. asset allocations and rebalancing
- ✓ Modular setup enabling easy addition of further features
- ✓ Integration of multiple crypto exchanges and custodians
- ✓ Access to dozens of cryptocurrencies
- ✓ Quick onboarding and setup

04
