Our
Products

AI-powered Trading Portfolio

Invest through automatic buying and selling in a wide range of cryptocurrencies.

They are carefully selected by Longship Invest through statistical analysis and traded using our internally developed algorithms.

The investment is diversified across multiple cryptocurrencies to increase security.

We recommend this product if you are interested in an investment which can provide higher returns than the market's performance.

Traditional Holding

Long-term investments in cryptocurrency. The value of your investment is directly tied to the market one-to-one. Changes in the market will therefore directly affect the value of your investment.

We help you select cryptocurrencies based on your preferences and risk profile to build your personal portfolio.

We recommend this product if you are looking for a stable and long-term investment, and want full transparency regarding the composition of your portfolio.

Cost

Startup: 0%
Exchange Fee: 2.25%
Running Monthly Fee: 0.1%
Commission: 8% of returns
Termination Exchange Fee: 2.25%

Startup is free, almost.

We make it easy to get started – that’s why registration with us is free and always will be.

Exchanging from fiat currency to crypto costs 2.25% of the invested amount. This fee covers the costs Longship Invest incurs in converting the customer’s fiat currency deposit into a cryptocurrency holding through Coinify.

If you invest directly with cryptocurrency, startup is 100% free.

Running costs

Monthly costs constitute 0.1% of the holding, paid on the last day of the month. This is equivalent to Annual Costs in Percentage (ACP) of 1.2066%.

Withdrawal

No profit, no commission.

Longship Invest charges 8% commission, solely on the profits – not the original investment. The final amount is paid directly to the customer’s bank account, minus an exchange fee of 2.25%.

Risk Management

Safety first.

All our products are built around a security first mindset from initial idea to final implementation.

- All trading is strictly research based and scientifically verified to at least 99.88% confidence level.
- We trade long - No risky trading schemes such as leveraged trading or short selling. Our focus is on sustainable and stable investment strategies for long-term growth.
- Our systems are live in the market 24/7 yielding a live time no human can achieve – and they are self-recovering.
- Your funds are yours and kept separate – you can always track the value via your dashboard and withdraw when necessary.
- We diversify into carefully selected crypto assets on different exchanges to mitigate market risks.
