
GLOBAL MEDICAL CONCIERGE PRACTICE

The Definitive Head-of-State Experience

—
THE FREEDOM TO
TRULY ENJOY LIFE
COMES ONLY WHEN
ONE IS TRULY SECURE.

Have you ensured that your medical preparedness matches your security readiness?

You prioritize the safety and well-being of yourself and your loved ones because you understand their impact on your family and business. Yet, in today's fast-paced world, your current protection might not suffice.

While a personal physician is a valuable asset, can you confidently say you have ready access to optimal health support—anytime, anywhere?

**With the Crisis24 Private Strategic Group (PSG)
- Global Medical Concierge Practice, you can.**

ELITE COVERAGE ACCESSIBLE ANYWHERE ON EARTH

Offering a level of medical support typically reserved for heads of state, the Crisis24 Private Strategic Group (PSG) - Global Medical Concierge Practice was designed by a team responsible for the health and welfare of U.S. Presidents and global business leaders.

As the leader in risk management for Fortune 500 executives and the world's wealthiest families, we understand the unique lifestyles of prominent individuals — and how to integrate world-class medical support seamlessly into their risk management framework.

FINDING THE RIGHT WORLD-CLASS SPECIALIST CAN BE A TRUE CHALLENGE

Identifying truly exceptional care is difficult. A concierge physician can help with this locally—but it is impossible for a single person to maintain detailed knowledge of top specialists across conditions and geographies, let alone have rapid access to them.

LIKE HAVING A DOCTOR WITH YOU AT ALL TIMES

We provide immediate access to a dedicated physician team supported by a panel of world-leading specialists—anytime, for any reason.

DEDICATED INTERNAL PHYSICIAN TEAM

- Decades of executive and family medicine experience

HEALTHCARE SYSTEMS HAVE PUT UP WALLS AROUND THEIR PHYSICIANS

When seeking medical advice outside of office hours or when away from home, patients have limited options. Meanwhile, seeing a physician in-person can also be unpleasant, e.g., two or three layers of triage, waiting rooms filled with airborne illnesses, hours of productive time lost, etc.

THE BEST CARE, RIGHT AWAY

Facilitated by a nimble, dedicated team, our world-leading strength and depth of expertise in medical risk management and emergency response ensure that members are well-prepared for unforeseen incidents.

IMMEDIATE VIRTUAL ACCESS TO PHYSICIANS 24/7/365

- Instant connection to a physician who knows you
- Trained in critical event management but no issue too small

ACCESSING QUALITY CARE DURING TRAVEL CAN BE A MAZE

No one intends for an accident or serious medical event to occur while far from home. As a result, knowledge of onsite primary care support may be limited—patients likely won’t know where the best local facilities and specialists are.

DE-RISKING TRAVEL EXPERTLY

Our team has decades of experience in the management and oversight of travel medicine for U.S. Presidents, heads of state, business leaders, and families.

To live your best life for longer, you need the latest diagnostics, early intervention therapies, and disease prevention approaches. But how can one reliably distinguish useful tools from fads—and medical visionaries from charlatans?
